

Delivering great service

Next day Express Service

Orders received before 1pm for stocked items, will be dispatched on the same day and delivered to you on the next working day in between 09:00 – 18:00 if express delivery has been chosen.

(Working days are classed as Monday to Friday and excludes weekends and holidays)

2-3-day Service

Our 2-3-day service now means that you can have your delivery at a lower cost than our express service we offer.

All deliveries will be made on working days only, please see the pricing matrix for charges.

Exceptions

Solvent based hazardous products: Legislation requires drivers carrying solvents or flammable materials to be trained and certified to do so. Therefore additional time in transit should be allowed. We do not guarantee delivery times for Hazardous products.

Remote Areas: There are a few parts of the country where delivery cannot be guaranteed within the specified transit times. Parts of Yorkshire, the Welsh borders, the Highlands, the South West and the off-shore islands are common black spots. Please allow an additional days transit in these locations.

Over 98% on deliveries are made within the allotted time, except where specified above; however, this does mean there is a 2% failure rate. Failures are usually attributable to traffic congestion damages or miss-routes. We therefore recommend you order your products within plenty of time.

Non-stocked items typically have a 3-week lead time, so please discuss your stocking requirements with your area representative.

Damaged or Missing Items

All deliveries are deemed to be complete and in good condition unless noted otherwise on the carriers documentation. We do not replace any damaged or missing items if the consignment has been signed for as complete and in good condition.
