

PANEELIKATTO- MAALI

INDOOR PANEL SURFACES

WHITE
T1326
 (NCS S 0500-N)

Whitewash your panel ceilings

Paneelikattomaali is a new water-soluble indoor paint for wooden surfaces. With little effort, it will restore old yellowed or discoloured panel ceilings to a shining white. In addition to previously painted or varnished panel surfaces, Paneelikattomaali is extremely well-suited for use as a basecoat or topcoat for wood panel ceilings. Matte Paneelikattomaali provides good coverage as it prevents discolouration caused by knots and other dark spots.

NEW!
