SAUNA PRODUCTS

**WOODEN SURFACES IN A SAUNA
AND HUMID SPACES INDOORS**

SATU protects and finishes wooden surfaces in a sauna

Products in the SATU sauna series can be used for protecting all wooden surfaces in a sauna and bathroom, such as wall and ceiling panels, benches in the sauna, a sauna stool, and wooden railings. Whether you like the traditional colour of wood, or prefer a modern tinted sauna, you can find suitable products in the SATU series.

Using SATU SAUNAVAHA Sauna wax and SATU SAUNASUOJA Protection for Sauna, which can be tinted, you can freshen up the overall image of the sauna or change it so that it is compatible with the rest of the decor at your home. Besides changing the atmosphere of a sauna, the products in the SATU Sauna series form a dirt- and water-repellent coat so it is easy to keep sauna clean and hygienic.

Thanks to a breathable coat, the products in the SATU Sauna series can also be used for other wooden surfaces indoors such as worktops and log surfaces.

SATU SAUNAVAHA wax can be used for protecting all wooden surfaces such as benches in the sauna and a sauna stool.

SATU SAUNAVAHA sauna wax

A waterborne protective coating that contains natural wax for all wooden surfaces in the sauna and bathroom. It forms a matt, dirt- and water-repellent but breathable waxy coat. Clear SATU Sauna Wax emphasises the natural colour of wood. Coloured wax gives wooden surfaces a beautiful transparent shade.

Paint product group: 711 (MaalausRYL 2012). **Spreading capacity:** Applied once onto a smooth surface about 10 m²/l. **Application method:** Brush and sponge. **Tint:** Clear, white and grey. Can be tinted into the shades of the Transparent Indoor Colour Chart. **Package sizes:** 0,45 l, 0,9 l. Emission classification group M1.

SATU SAUNASUOJA protection for sauna

Waterborne protective coating for wooden surfaces, such as ceiling and wall panels in the sauna and bathroom. It forms a dirt- and water-repellent but breathable coat. Application is easy and tidy thanks to a thixotropic consistency – practically no splashing and dripping. Clear SATU Sauna Protection does not change the natural colour of wood. Can be tinted.

Paint product group: 961 (MaalausRYL 2012). **Spreading capacity:** Applied once onto a smooth surface about 10 m²/l. **Application method:** Brush and sponge. **Tint:** Clear, can be tinted into the shades of the Transparent Indoor Colour Chart. **Package sizes:** 0.9 l, 2.7 l and 9 l. Emission classification group M1.

SATU LAUDESUOJA protection for benches in the steam room

Clear and odourless non-toxic protective coating that contains paraffin oil for wooden surfaces. It forms a dirt- and water-repellent but breathable coat. Emphasises the natural colour of wood. Suitable for coating untreated and previously oil treated benches in a steam room, a sauna stool, and wooden table tops and cutting boards.

Paint product group: 739 (MaalausRYL 2012). **Spreading rate:** Applied once onto a smooth surface about 10 m²/l. **Application method:** Brush and sponge. **Tint:** Clear, cannot be tinted. **Package sizes:** 0,25 l, 1 l. Emission classification group M1.
