**PRE-TREATMENT  
AND CLEANING SOLUTIONS**

**PRE-TREATMENT AND MAINTENANCE  
CLEANING OF SURFACES BEFORE PAINTING**

## Environmentally friendly cleaning power

It is always recommended to clean surfaces,  
and a dirty surface must never be painted

**RENSA product range** can meet the cleaning needs of the most demanding surfaces. The range includes a suitable product for each surface type and for all kinds of use. New, advanced cleaning solutions offer excellent cleaning power and unique user and environment-friendliness.

The unique consistency of RENSA products is based on biodegradable surface active agents whose functionality has been tested with various paint types and substrates.

### RENSA SUPER Paint Cleaner

Efficient general cleaner for all surfaces of a building. For pre-treatment before painting both indoors and outdoors. Quick and easy to use. No rinsing is necessary – a cleaned surface can be painted as soon as it is dry.

*Interior walls and ceilings, furniture, window frames, doors, floors.* **Package sizes:** 1l, 1l spray and 5l.

### RENSA FACADE Facade and Mould Cleaner

For the cleaning of all outdoor surfaces and pre-treatment before painting. For the efficient removal of dirt, mould and algae growths and any other impurities that hamper paint adhesion. No damage to vegetation or painted surfaces.

*Wood, concrete, plaster and old painted surfaces that can be washed with water.* **Package sizes:** 1l and 5l.

### RENSA TERRACE Deck Cleaner

Very efficient pre-treatment cleaner for wooden terraces and terrace furniture before they are treated with wood oil. Cleans and lightens surfaces by efficiently removing dirt.

*Wooden terrace floors, wooden terrace furniture.* **Package sizes:** 1l and 5l.

### RENSA SAUNA Sauna Cleaner

Cleans a sauna and washrooms and refreshes gently but efficiently. Suitable to be used on all structure surfaces of washrooms, including old painted surfaces. For the pre-treatment of wooden benches and panel surfaces before they are protected/waxed.

*Wooden benches in a sauna and washroom, panel surfaces, tiled surfaces, painted surfaces.* **Package sizes:** 1l.

### RENSA ROOF Washing Solution

For the cleaning of roof tiling and heavily soiled, previously painted sheet-metal roofs before paint application. For the efficient removal of dirt and algae, moss and lichen growth.

*Roof tiling, painted sheet-metal roof.* **Package sizes:** 1l and 5l.

### RENSA ANTI-MOULD Mould Protector

Efficient and long-lasting concentrate for the removal of mould, lichen, moss and algae growth from the exterior surfaces of buildings. Protects and cleans the exterior surfaces of a building, roof tiling, paving, fences, etc. Easy to apply on a surface and let the weather clean away any growths. Does not require rinsing if the surface is not to be painted.

*Roof, walls, plinth, terrace floor, fence, paving.* **Package sizes:** 1l and 5l.

### RENSA STEEL Washing Solution

For the pre-treatment of a new sheet-metal roof and other zinc-coated (galvanised) steel surfaces before initial paint application.

*Unpainted sheet-metal roof, zinc-coated steel surfaces.* **Package sizes:** 1l and 5l.

## We make it colourful

Teknos is a Finnish family company that has been established in 1948. Our versatile product selection includes paints and coating products for wood, stone aggregate surfaces and metal, for both indoor and outdoor use.

Uncompromising product development, strong experience and continuous education have made Teknos a leading expert in its area of operations. Our high-quality products and useful tips are also at your disposal, whenever you are looking for the best possible result.
