SECTION 04: First aid measures

• 4.1 Description of first aid measures

After inhalation:

*

*

*

*

- Supply fresh air and to be sure call for a doctor.
- In case of unconsciousness place patient stably in side position for transportation.
- After skin contact:
- Immediately wash with water and soap and rinse thoroughly. Immediately rinse with water.
 - After eye contact:
 - Rinse opened eye for several minutes under running water.
 - After swallowing:
 - Do not induce vomiting; call for medical help immediately.
 - Information for doctor:
 - 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.
 - 4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available.

SECTION 05: Firefighting measures

•	5.1 Extinguishing media
•	Suitable extinguishing agents:
	CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
•	For safety reasons unsuitable extinguishing agents: Water with full jet
•	5.2 Special hazards arising from the substance or mixture
	Formation of toxic gases is possible during heating or in case of fire.
•	5.3 Advice for firefighters
•	Protective equipment:
	Mouth respiratory protective device.
	Do not inhale explosion gases or combustion gases.
	Additional information
	Cool endangered receptacles with water spray.
	Collect contaminated fire fighting water separately. It must not enter the sewage system.
