Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878 - United Kingdom: Northern Ireland

# **SAFETY DATA SHEET**

AQUATOP 2600-24 - BASE T

## SECTION 1: Identification of the substance/mixture and of the company/ undertaking

| 1.1 | Product identifier |  |
|-----|--------------------|--|
| Pr  | roduct name        |  |

: AQUATOP 2600-24 - BASE T

**1.2 Relevant identified uses of the substance or mixture and uses advised againstProduct use**: Paint.

#### 1.3 Details of the supplier of the safety data sheet

Teknos Group Oy, Takkatie 3, FI-00370 HELSINKI, FINLAND. Tel. +358 9 506 091.

e-mail address of person : Prod-safe@teknos.com

## responsible for this SDS

National contact

Teknos Ireland Limited, 52 Ballymoughan Road, Magherafelt, BT45 6HN, UK. Tel. +44 (0) 2879 301 472.

#### **1.4 Emergency telephone number**

National advisory body/Poison Centre

Telephone number : NHS: 111

### **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

Product definition : Mixture

Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Skin Sens. 1, H317

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

#### 2.2 Label elements

Hazard pictograms

| Signal word<br>Hazard statements | : Warning<br>: H317 - May cause an allergic skin reaction.  |
|----------------------------------|---|
| Precautionary statements         |   |
| Prevention                       | : P280 - Wear protective gloves.<br>P261 - Avoid breathing vapour.  |
| Response                         | <ul> <li>₱302 + P352 - IF ON SKIN: Wash with plenty of water.</li> <li>P333 + P313 - If skin irritation or rash occurs: Get medical advice or attention.</li> <li>P362 + P364 - Take off contaminated clothing and wash it before reuse.</li> </ul> |
| Storage                          | : Not applicable.   |
| Disposal                         | <ul> <li>P501 - Dispose of contents and container in accordance with all local, regional,<br/>national and international regulations.</li> </ul>  |
| Hazardous ingredients            | : Contains: EO bis(benztriazolyl)phenylpropionat; adipohydrazide; 1,2-benzisothiazol-3 (2H)-one and 2-methyl-2H-isothiazol-3-one  |

## SECTION 2: Hazards identification

| Supplemental label elements   | : | Contains biocidal products for in-can preservation: BIT and 2,2'-dithiobis[N-<br>methylbenzamide] and Bronopol and MIT and OIT and MBIT. |
|---|---|--|
| Annex XVII - Restrictions<br>on the manufacture,<br>placing on the market and<br>use of certain dangerous<br>substances, mixtures and<br>articles | : |  |
| 2.3 Other hazards   |   |  |
| Product meets the criteria<br>for PBT or vPvB according<br>to Regulation (EC) No.<br>1907/2006, Annex XIII  | : | This mixture does not contain any substances that are assessed to be a PBT or a vPvB.  |

Other hazards which do : None known. not result in classification

## **SECTION 3: Composition/information on ingredients**

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

Type

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

Occupational exposure limits, if available, are listed in Section 8.

### **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

| Eye contact                | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.   |
|----------------------------|--|
| Inhalation                 | : Remove victim to fresh air and keep at rest in a position comfortable for breathing.<br>If not breathing, if breathing is irregular or if respiratory arrest occurs, provide<br>artificial respiration or oxygen by trained personnel. It may be dangerous to the<br>person providing aid to give mouth-to-mouth resuscitation. Get medical attention if<br>adverse health effects persist or are severe. If unconscious, place in recovery<br>position and get medical attention immediately. Maintain an open airway. Loosen<br>tight clothing such as a collar, tie, belt or waistband.   |
| Skin contact               | : Wash with plenty of soap and water. Remove contaminated clothing and shoes.<br>Wash contaminated clothing thoroughly with water before removing it, or wear<br>gloves. Continue to rinse for at least 10 minutes. Get medical attention. In the<br>event of any complaints or symptoms, avoid further exposure. Wash clothing before<br>reuse. Clean shoes thoroughly before reuse.  |
| Ingestion                  | : Wash out mouth with water. Remove dentures if any. If material has been<br>swallowed and the exposed person is conscious, give small quantities of water to<br>drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not<br>induce vomiting unless directed to do so by medical personnel. If vomiting occurs,<br>the head should be kept low so that vomit does not enter the lungs. Get medical<br>attention if adverse health effects persist or are severe. Never give anything by<br>mouth to an unconscious person. If unconscious, place in recovery position and get<br>medical attention immediately. Maintain an open airway. Loosen tight clothing such<br>as a collar, tie, belt or waistband. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.  |

### 4.2 Most important symptoms and effects, both acute and delayed <u>Over-exposure signs/symptoms</u>

| Date of issue/Date of revision | : 16/04/2025 | Date of previous issue | : 12/10/2023 | Version : 2    | 3/18 |
|--------------------------------|--------------|------------------------|--------------|----------------|------|
| AQUATOP 2600-24 - BASE T       |              |                        |              | Label No :4746 | 33   |

| Eye contact                                       | : No specific data.   |
|---|---|
| Inhalation  | No specific data.   |
| Skin contact                                      | : Adverse symptoms may include the following:<br>irritation<br>redness  |
| Ingestion   | : No specific data.   |
| 4.3 Indication of any immedia                     | ate medical attention and special treatment needed  |
| Notes to physician                                | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul>   |
| Specific treatments                               | : No specific treatment.  |
| SECTION 5: Firefight                              | ting measures   |
| 5.1 Extinguishing media                           |   |
| Suitable extinguishing media                      | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media                    | : None known.   |
| 5.2 Special hazards arising f                     | rom the substance or mixture  |
| Hazards from the substance or mixture             | : In a fire or if heated, a pressure increase will occur and the container may burst.   |
| Hazardous combustion products                     | : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide  |
| 5.3 Advice for firefighters                       |   |
| Special protective actions for fire-fighters      | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.   |
| Special protective<br>equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents. |

#### 6.1 Personal precautions, protective equipment and emergency procedures

| For non-emergency<br>personnel | action shall be taken involving any personal risk or without suitable to<br>acuate surrounding areas. Keep unnecessary and unprotected perso<br>ering. Do not touch or walk through spilt material. Avoid breathing v<br>t. Provide adequate ventilation. Wear appropriate respirator when v<br>dequate. Put on appropriate personal protective equipment. | onnel from<br>apour or |
|--------------------------------|--|------------------------|
| For emergency responders       | pecialised clothing is required to deal with the spillage, take note of a<br>rmation in Section 8 on suitable and unsuitable materials. See also<br>rmation in "For non-emergency personnel".  |                        |
| 6.2 Environmental precautions  | bid dispersal of spilt material and runoff and contact with soil, waterwa<br>I sewers. Inform the relevant authorities if the product has caused en<br>ution (sewers, waterways, soil or air).   |                        |
| 6.3 Methods and material for   | nment and cleaning up  |                        |
| Small spill                    | p leak if without risk. Move containers from spill area. Absorb with a   | ın inert               |

spill
 Stop leak if without risk. Move containers from spill area. Absorb with an inert material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

### **SECTION 6: Accidental release measures**

| Large spill                     | : Stop leak if without risk. Move containers from spill area. Approach the release  |
|---------------------------------|---|
|                                 | from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows.  |
|                                 | Dispose of via a licensed waste disposal contractor. Contaminated absorbent<br>material may pose the same hazard as the spilt product. Contain and collect<br>spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or<br>diatomaceous earth and place in container for disposal according to local<br>regulations. |
| 6.4 Reference to other sections | : See Section 1 for emergency contact information.<br>See Section 8 for information on appropriate personal protective equipment.<br>See Section 13 for additional waste treatment information.   |

### **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

| Protective measures                    | : Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapour or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. |
|--|--|
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.  |

#### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

| 7.3 Specific end use(s)                 |                  |
|---|------------------|
| Recommendations                         | : Not available. |
| Industrial sector specific<br>solutions | : Not available. |

### **SECTION 8: Exposure controls/personal protection**

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

#### 8.1 Control parameters

#### **Occupational exposure limits**

| Product/ingredient na                    | Exposure limit values |  |  |                                       |  |

## **SECTION 11: Toxicological information**

#### Respiratory or skin sensitization

Not available.

### Skin Conclusion/Summary [Product] : Not available. Respiratory **Conclusion/Summary [Product]** : Not available. Germ cell mutagenicity Not available. Conclusion/Summary [Product] : Not available. **Carcinogenicity** Not available. Conclusion/Summary [Product] : Not available. **Reproductive toxicity** Not available. **Conclusion/Summary [Product]** : Not available. Specific target organ toxicity (single exposure) Not available. Specific target organ toxicity (repeated exposure) Not available. **Aspiration hazard** Not available. Information on likely routes of exposure Not available. Potential acute health effects Eye contact : No known significant effects or critical hazards. Inhalation : No known significant effects or critical hazards. **Skin contact** : May cause an allergic skin reaction. Ingestion : No known significant effects or critical hazards. Symptoms related to the physical, chemical and toxicological characteristics : No specific data. Eye contact Inhalation : No specific data. Skin contact : Adverse symptoms may include the following: irritation redness Ingestion : No specific data. Delayed and immediate effects as well as chronic effects from short and long-term exposure Short term exposure **Potential immediate** : Not available. effects

Potential delayed effects : Not available.

Date of issue/Date of revision : 16/04/2025 Date of previous issue

## **SECTION 11: Toxicological information**

| Long term exposure          |   |
|-----------------------------|---|
| Potential immediate effects | : Not available.  |
| Potential delayed effects   | : Not available.  |
| Potential chronic health ef | fects   |
| Not available.              |   |
| Conclusion/Summary [Pi      | roduct] : Not available.  |
| General                     | <ul> <li>Once sensitized, a severe allergic reaction may occur when subsequently exposed<br/>to very low levels.</li> </ul> |
| Carcinogenicity             | : No known significant effects or critical hazards.   |
| Mutagenicity                | : No known significant effects or critical hazards.   |
| Reproductive toxicity       | : No known significant effects or critical hazards.   |
|                             |   |

#### 11.2 Information on other hazards

| 11.2.1 Endocrine disrupting properties |  |
|--|--|
| Not available.                         |  |

**Conclusion/Summary [Product]** 

: The product does not meet the criteria to be considered as having endocrine disrupting properties according to the criteria set out in either Regulation (EC) No. 1907/2006 or Regulation (EC) No 1272/2008.

#### 11.2.2 Other information

Not available.

## **SECTION 12: Ecological information**

| 12.1 Toxicity                            |   |
|--|---|
| Product/ingredient name                  | Result  |
| ?-(2-butoxyethoxy)ethanol                | Acute - LC50 - Fresh water                              |
|  | Fish - Bluegill - Lepomis macrochirus                   |
|  | <u>Size</u> : 33 to 75 mm                               |
|  | 1300000 μg/l [96 hours]                                 |

## **SECTION 12: Ecological information**

No known significant effects or critical hazards.

### **SECTION 13: Disposal considerations**

| 13.1 Waste treatment methods        |   |
|-------------------------------------|---|
| Product                             |   |
| Methods of disposal :               | The generation of waste should be avoided or minimised wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation and<br>any regional local authority requirements. Dispose of surplus and non-recyclable<br>products via a licensed waste disposal contractor. Waste should not be disposed of<br>untreated to the sewer unless fully compliant with the requirements of all authorities<br>with jurisdiction. |
| European waste :<br>catalogue (EWC) | 080112  |
| Packaging                           |   |
| Methods of disposal                 | The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.  |
| Special precautions                 | This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.   |

### **SECTION 14: Transport information**

|                                    | -              |                |                |                |
