Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878

SAFETY DATA SHEET

DRYWOOD OPTI-JOINT XP II

SECTION 1: Identification of the substance/mixture and of the company/ undertaking

1.1 Product identifier Product name

: DRYWOOD OPTI-JOINT XP II

1.2 Relevant identified uses of the substance or mixture and uses advised againstProduct use: Paint.

1.3 Details of the supplier of the safety data sheet

Teknos Group Oy, Takkatie 3, FI-00370 HELSINKI, FINLAND. Tel. +358 9 506 091.

e-mail address of person : Prod-safe@teknos.com

responsible for this SDS National contact

Teknos Group Oy, Takkatie 3, FI-00370 HELSINKI, FINLAND. Tel. +358 9 506 091.

1.4 Emergency telephone number

National advisory body/Poison Centre

Telephone number: In an emergency, call 112

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Product definition : Mixture <u>Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]</u> Not classified.

The product is not classified as hazardous according to Regulation (EC) 1272/2008 as amended. See Section 11 for more detailed information on health effects and symptoms.

| 2.2 Label elements | |
|---|---|
| Signal word | : No signal word. |
| Hazard statements | : No known significant effects or critical hazards. |
| Precautionary statements | |
| General | P103 - Read carefully and follow all instructions. P102 - Keep out of reach of children. P101 - If medical advice is needed, have product container or label at hand. |
| Prevention | : Not applicable. |
| Response | : Not applicable. |
| Storage | : Not applicable. |
| Disposal | : Not applicable. |
| Supplemental label elements | : |
| Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles | : Not applicable. |

: 25/07/2022 Date of previous issue

SECTION 2: Hazards identification

2.3 Other hazards

Product meets the criteria for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII : This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

Other hazards which do : None known. not result in classification

SECTION 3: Composition/information on ingredients

3.2 Mixtures : Mixture Specific Conc. **Product/ingredient name Identifiers** % Classification Type Limits, M-factors and ATEs Hydrocarbons, C11-C14, n-≤3 Asp. Tox. 1, H304 REACH #: [1] EUH066 alkanes, isoalkanes, cyclics, 01-2119456620-43 <2% EC: 926-141-6 aromaticshydrocarbons trimethoxyvinylsilane REACH #: ≤3 Flam. Liq. 3, H226 ATE [Inhalation [1] 01-2119513215-52 Acute Tox. 4, H332 (vapours)] = 11 mg/ EC: 220-449-8 CAS: 2768-02-7 See Section 16 for the full text of the H statements declared above.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section. Type

[1] Substance classified with a health or environmental hazard

Occupational exposure limits, if available, are listed in Section 8.

SECTION 4: First aid measures

| 4.1 Description of first aid m | neasures |
|--------------------------------|--|
| Eye contact | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs. |
| Inhalation | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. |
| Skin contact | Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. |
| Ingestion | : Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. |

4.2 Most important symptoms and effects, both acute and delayed

Over-exposure signs/symptoms

| Eye contact | : No specific data. |
|--------------|---------------------|
| Inhalation | : No specific data. |
| Skin contact | : No specific data. |
| Ingestion | : No specific data. |

4.3 Indication of any immediate medical attention and special treatment needed

| Date of issue/Date of revision | : 25/07/2022 | Date of previous issue | :06/07/2022 | Version | :1.01 | 2/12 |
|--------------------------------|--------------|------------------------|-------------|----------|-------|------|
| DRYWOOD OPTI-JOINT XP II | | | | Label No | 37547 | 7 |

| SECTION 4: First aid | measures | |
|---|---|------|
| Notes to physician | : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. | |
| Specific treatments | : No specific treatment. | |
| SECTION 5: Firefigh | ing measures | |
| 5.1 Extinguishing media | | |
| Suitable extinguishing media | : Use an extinguishing agent suitable for the surrounding fire. | |
| Unsuitable extinguishing media | : None known. | |
| 5.2 Special hazards arising | rom the substance or mixture | |
| Hazards from the substance or mixture | : In a fire or if heated, a pressure increase will occur and the container may burst. | |
| Hazardous combustion products | : Decomposition products may include the following materials: carbon dioxide carbon monoxide metal oxide/oxides | |
| 5.3 Advice for firefighters | | |
| Special protective actions for fire-fighters | : Promptly isolate the scene by removing all persons from the vicinity of the incide there is a fire. No action shall be taken involving any personal risk or without suitable training. | nt i |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection chemical incidents. | |

SECTION 6: Accidental release measures

| 6.1 Personal precautions, pro | ote | ctive equipment and emergency procedures | |
|---------------------------------|-----|--|--|
| For non-emergency personnel | : | No action shall be taken involving any personal risk or wi Evacuate surrounding areas. Keep unnecessary and un entering. Do not touch or walk through spilt material. Pu protective equipment. | protected personnel from |
| For emergency responders | : | If specialised clothing is required to deal with the spillage information in Section 8 on suitable and unsuitable mater information in "For non-emergency personnel". | |
| 6.2 Environmental precautions | : | Avoid dispersal of spilt material and runoff and contact w and sewers. Inform the relevant authorities if the produc pollution (sewers, waterways, soil or air). | |
| 6.3 Methods and material for | co | ntainment and cleaning up | |
| Small spill | : | Stop leak if without risk. Move containers from spill area up if water-soluble. Alternatively, or if water-insoluble, at material and place in an appropriate waste disposal cont licensed waste disposal contractor. | osorb with an inert dry |
| Large spill | : | Stop leak if without risk. Move containers from spill area water courses, basements or confined areas. Wash spil treatment plant or proceed as follows. Contain and colle combustible, absorbent material e.g. sand, earth, vermic and place in container for disposal according to local reg licensed waste disposal contractor. | lages into an effluent oct spillage with non- sulite or diatomaceous earth |
| 6.4 Reference to other sections | : | See Section 1 for emergency contact information. See Section 8 for information on appropriate personal pr See Section 13 for additional waste treatment information | |
| Date of issue/Date of revision | | : 25/07/2022 Date of previous issue : 06/07/2022 | Version : 1.01 3/12 |
| DRYWOOD OPTI-JOINT XP II | | | Label No :37547 |

SECTION 7: Handling and storage

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

7.1 Precautions for safe handling

| Protective measures | : Put on appropriate personal protective equipment (see Section 8). |
|--|---|
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |

7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

7.3 Specific end use(s)

Recommendations

: Not available.

Industrial sector specific solutions

cific : Not available.

SECTION 8: Exposure controls/personal protection

required.

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

8.1 Control parameters

Occupational exposure limits

| Product/ingredient name No exposure limit value known. | | Exposure limit values | | |
|--|--|---|--|--|
| | | | | |
| procedures atm of th prot the | osphere or biologi e ventilation or ot ective equipment. ollowing: Europe | s ingredients with exposure limits, personal, workplace ical monitoring may be required to determine the effectiveness her control measures and/or the necessity to use respiratory Reference should be made to monitoring standards, such as an Standard EN 689 (Workplace atmospheres - Guidance for posure by inhalation to chemical agents for comparison with | | |

limit values and measurement strategy) European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482

(Workplace atmospheres - General requirements for the performance of procedures

12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

12.6 Endocrine disrupting properties

Not available.

12.7 Other adverse effects

No known significant effects or critical hazards.

SECTION 13: Disposal considerations

| 13.1 Waste treatment metho | ods |
|----------------------------|---|
| <u>Product</u> | |
| Methods of disposal | : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. |
| Hazardous waste | Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 2008/98/EC. |
| Packaging | |
| Methods of disposal | : The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. |
| Special precautions | : This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. |

SECTION 14: Transport information
