• 5.2 Special hazards arising from the substance or mixture	
<ul> <li>Formation of toxic gases is possible during heating or in case of fire.</li> <li>5.3 Advice for firefighters</li> </ul>	
Protective equipment:	
Mouth respiratory protective device.	
Do not inhale explosion gases or combustion gases. <ul> <li>Additional information</li> </ul>	
Cool endangered receptacles with water spray.	
Collect contaminated fire fighting water separately. It must not enter the sewage	system.
SECTION 06: Accidental release measures	
6.1 Personal precautions, protective equipment and emergency procedures	5
Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation	
6.2 Environmental precautions:	
Do not allow product to reach sewage system or any water course.	
Inform respective authorities in case of seepage into water course or sewage sys In case of seepage into the ground inform responsible authorities.	stem.
Dilute with plenty of water.	
In case of gas release or seepage into the ground inform responsible authorities.	
Do not allow to enter sewers/ surface or ground water. • 6.3 Methods and material for containment and cleaning up:	
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binder	ers, sawdust).
Dispose contaminated material as waste according to item 13. • 6.4 Reference to other sections	
<ul> <li>6.4 Reference to other sections</li> <li>See Section 7 for information on safe handling.</li> </ul>	
See Section 8 for information on personal protection equipment.	
See Section 13 for disposal information.	
SECTION 07: Handling and storage	
• Handling:	
<ul> <li>nanoling:</li> <li>7.1 Precautions for safe handling</li> </ul>	
Open and handle receptacle with care.
