# Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878 - Malta

# **SAFETY DATA SHEET**

HYDROPUR 2K COLOR 7515-30

## SECTION 1: Identification of the substance/mixture and of the company/ undertaking

| 1.1 Product iden | tifier |
|------------------|--------|
| Product name     |        |

: HYDROPUR 2K COLOR 7515-30

**1.2 Relevant identified uses of the substance or mixture and uses advised againstProduct use**: Paint.

#### 1.3 Details of the supplier of the safety data sheet

Teknos Group Oy, Takkatie 3, FI-00370 HELSINKI, FINLAND. Tel. +358 9 506 091.

e-mail address of person : Prod-safe@teknos.com

responsible for this SDS

#### **National contact**

Teknos Group Oy, Takkatie 3, FI-00370 HELSINKI, FINLAND. Tel. +358 9 506 091.

#### 1.4 Emergency telephone number

#### National advisory body/Poison Centre

 Telephone number
 : Malta Competition and Consumer Affairs Authority (MCCAA): +356 2395 2000

## **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture Product definition : Mixture

Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS] Not classified.

The product is not classified as hazardous according to Regulation (EC) 1272/2008 as amended. See Section 11 for more detailed information on health effects and symptoms.

| 2.2 Label elements  |   |   |
|---|---|---|
| Signal word   | : | No signal word.   |
| Hazard statements   | : | No known significant effects or critical hazards.   |
| Precautionary statements  |   |   |
| Prevention  | : | Not applicable.   |
| Response  | : | Not applicable.   |
| Storage   | : | Not applicable.   |
| Disposal  | : | Not applicable.   |
| Supplemental label<br>elements  | : | Contains 1,2-benzisothiazol-3(2H)-one, 2-methyl-2H-isothiazol-3-one and reaction<br>mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-<br>2H-isothiazol-3-one [EC no. 220-239-6] (3:1). May produce an allergic reaction.<br>Safety data sheet available on request.<br>Warning! Hazardous respirable droplets may be formed when sprayed. Do not<br>breathe spray or mist. |
| Annex XVII - Restrictions<br>on the manufacture,<br>placing on the market and<br>use of certain dangerous<br>substances, mixtures and<br>articles | : |   |

## **SECTION 2: Hazards identification**

#### 2.3 Other hazards

Product meets the criteria for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII Other hazards which do

not result in classification

: This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

: None known.

## **SECTION 3: Composition/information on ingredients**

| 3.2 Mixtures Product/ingredient name  | : Mixture   | %         | Classification  | Specific Conc.   | Туре    |
|---|---|-----------|---|--|---------|
| Product/ingredient name   | luentmers   | /0        | Classification  | Limits, M-factors<br>and ATEs  | Type    |

|   |  | See Section 16 for<br>the full text of the H<br>statements declared<br>above. | M [Chronic] = 100 |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section. <u>Type</u>

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

[\*] The classification as a carcinogen by inhalation applies only to mixtures placed on the market in powder form containing 1% or more of titanium dioxide particles with aerodynamic diameter  $\leq$  10 µm not bound within a matrix.

Occupational exposure limits, if available, are listed in Section 8.

### SECTION 4: First aid measures

| 4.1 Description of first aid n | neasures   |
|--------------------------------|--|
| Eye contact                    | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.  |
| Inhalation                     | : Remove victim to fresh air and keep at rest in a position comfortable for breathing.<br>Get medical attention if symptoms occur.   |
| Skin contact                   | <ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and<br/>shoes. Get medical attention if symptoms occur.</li> </ul>   |
| Ingestion                      | : Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |
| Protection of first-aiders     | : No action shall be taken involving any personal risk or without suitable training.   |
|                                |  |

#### 4.2 Most important symptoms and effects, both acute and delayed

Over-exposure signs/symptoms

| Eye contact  | : No specific data. |
|--------------|---------------------|
| Inhalation   | : No specific data. |
| Skin contact | : No specific data. |
| Ingestion    | : No specific data. |

#### 4.3 Indication of any immediate medical attention and special treatment needed

| Notes to physician  | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul> |
|---------------------|---|
| Specific treatments | : No specific treatment.  |

### **SECTION 5: Firefighting measures**

| 5.1 Extinguishing media<br>Suitable extinguishing<br>media | : Use an extinguishing agent suitable for the surrounding fire. |  |
|--|---|--|
| Unsuitable extinguishing media                             | : None known.   |  |

#### 5.2 Special hazards arising from the substance or mixture

Hazards from the : In a fire or if heated, a pressure increase will occur and the container may burst. substance or mixture

#### **SECTION 5: Firefighting measures Hazardous combustion** : Decomposition products may include the following materials: carbon dioxide products carbon monoxide sulfur oxides metal oxide/oxides 5.3 Advice for firefighters **Special protective actions** : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without for fire-fighters suitable training. **Special protective** : Fire-fighters should wear appropriate protective equipment and self-contained equipment for fire-fighters breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.

### **SECTION 6: Accidental release measures**

| 6.1 Personal precautions, pro  | te | ctive equipment and emergency procedures   |
|--------------------------------|----|--|
| For non-emergency<br>personnel | :  | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilt material. Put on appropriate personal<br>protective equipment.   |
| For emergency responders       | :  | If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |
| 6.2 Environmental precautions  | :  | Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains<br>and sewers. Inform the relevant authorities if the product has caused environmental<br>pollution (sewers, waterways, soil or air).  |
| 6.3 Methods and material for   | со | ntainment and cleaning up  |
| Small spill                    | :  | Stop leak if without risk. Move containers from spill area. Dilute with water and mop<br>up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry<br>material and place in an appropriate waste disposal container. Dispose of via a<br>licensed waste disposal contractor.   |
| Large spill                    | :  | Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. |
| 6.4 Reference to other         | :  | See Section 1 for emergency contact information.   |

sections See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information.

### SECTION 7: Handling and storage

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

| Protective measures                    | : Put on appropriate personal protective equipment (see Section 8).   |
|--|---|
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |

#### 7.2 Conditions for safe storage, including any incompatibilities

| Date of issue/Date of revision | : 19/02/2024 | Date of previous issue | : No previous validation | Version    | :1 <b>4/15</b> |
|--------------------------------|--------------|------------------------|--------------------------|------------|----------------|
| HYDROPUR 2K COLOR 7515-30      |              |                        |                          | Label No : | 51881          |

## **SECTION 7: Handling and storage**

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

#### 7.3 Specific end use(s)

Recommendations: Not available.Industrial sector specific: Not available.solutions: Not available.

## **SECTION 8: Exposure controls/personal protection**

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

#### 8.1 Control parameters

#### **Occupational exposure limits**

| Product/ingredient name   | Exposure limit values           EU OEL (Europe, 1/2022). Absorbed through skin. Notes: list of indicative occupational exposure limit values           TWA: 20 ppm 8 hours.           TWA: 98 mg/m³ 8 hours.           STEL: 50 ppm 15 minutes.           STEL: 246 mg/m³ 15 minutes. |  |  |
|---------------------------|---|--|--|
| 2-Butoxyethanol           |   |  |  |
| 2-(2-butoxyethoxy)ethanol | EU OEL (Europe, 1/2022). Notes: list of indicative<br>occupational exposure limit values<br>TWA: 67.5 mg/m <sup>3</sup> 8 hours.<br>TWA: 10 ppm 8 hours.<br>STEL: 101.2 mg/m <sup>3</sup> 15 minutes.<br>STEL: 15 ppm 15 minutes.   |  |  |

#### **Biological exposure indices**

| Product/ingredient name No exposure indices known. |   | Exposure indices   |  |
|--|---|--|--|
|  |   |  |  |
| procedures   | European Stand<br>assessment of e<br>values and mea<br>atmospheres - C<br>of exposure to c<br>(Workplace atm<br>for the measure | Id be made to monitoring standards, such as the following:<br>lard EN 689 (Workplace atmospheres - Guidance for the<br>exposure by inhalation to chemical agents for comparison with limit<br>surement strategy) European Standard EN 14042 (Workplace<br>Guide for the application and use of procedures for the assessment<br>themical and biological agents) European Standard EN 482<br>ospheres - General requirements for the performance of procedures<br>ment of chemical agents) Reference to national guidance<br>nethods for the determination of hazardous substances will also be |  |

#### **DNELs/DMELs**

| Product/ingredient name           | Туре      | Exposure                 | Value                 | Population            | Effects         |
|-----------------------------------|-----------|--------------------------|-----------------------|-----------------------|-----------------|
| 2-Butoxyethanol                   | DNEL      | Long term Oral           | 6.3 mg/kg<br>bw/day   | General population    | Systemic        |
|                                   | DNEL      | Short term Oral          | 26.7 mg/<br>kg bw/day | General<br>population | Systemic        |

#### **PNECs**

No PNECs available

| 8.2 Exposure controls<br>Appropriate engineering :<br>controls | Good general ventilation should be sufficient to control worker exposure to airborne contaminants.  |  |  |  |  |  |  |
|--|---|--|--|--|--|--|--|
| Individual protection measures                                 |   |  |  |  |  |  |  |
| Hygiene measures :   | Wash hands, forearms and face thoroughly after handling chemical products,<br>before eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Wash contaminated clothing before reusing. Ensure that eyewash stations and<br>safety showers are close to the workstation location. |  |  |  |  |  |  |
| Eye/face protection :  | afety eyewear complying with an approved standard should be used when a risk<br>ssessment indicates this is necessary to avoid exposure to liquid splashes, mists,<br>ases or dusts. If contact is possible, the following protection should be worn,<br>nless the assessment indicates a higher degree of protection: safety glasses with<br>ide-shields.                                      |  |  |  |  |  |  |
| Skin protection  |   |  |  |  |  |  |  |
| Date of issue/Date of revision<br>HYDROPUR 2K COLOR 7515-30    | : 19/02/2024 Date of previous issue : No previous validation Version : 1 6/15<br>Label No :51881  |  |  |  |  |  |  |

## **SECTION 8: Exposure controls/personal protection**

| Hand protection                 | : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.  |
|---------------------------------|--|
|                                 | Recommendations : Wear suitable gloves tested to EN374.  |
|                                 | > 8 hours (breakthrough time): Nitrile gloves. thickness > 0.3 mm  |
|                                 | Not recommended polyvinyl alcohol (PVA) gloves   |
| Body protection                 | <ul> <li>Personal protective equipment for the body should be selected based on the task<br/>being performed and the risks involved and should be approved by a specialist<br/>before handling this product.</li> </ul>  |
| Other skin protection           | <ul> <li>Appropriate footwear and any additional skin protection measures should be<br/>selected based on the task being performed and the risks involved and should be<br/>approved by a specialist before handling this product.</li> </ul>  |
| Respiratory protection          | : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.   |
|                                 | Filter type (spray application): A P   |
| Environmental exposure controls | <ul> <li>Emissions from ventilation or work process equipment should be checked to<br/>ensure they comply with the requirements of environmental protection legislation.<br/>In some cases, fume scrubbers, filters or engineering modifications to the process<br/>equipment will be necessary to reduce emissions to acceptable levels.</li> </ul> |

## **SECTION 9: Physical and chemical properties**

2

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

#### Delayed and immediate effects as well as chronic effects from short and long-term exposure

| Date of issue/Date of revision | : 19/02/2024 | Date of previous issue | : No previous validation | Version : 1    | 9/15 |
|--------------------------------|--------------|------------------------|--------------------------|----------------|------|
| HYDROPUR 2K COLOR 7515-30      |              |                        |                          | Label No :5188 | 1    |

## **SECTION 11: Toxicological information**

| Short term exposure            |   |
|--------------------------------|---|
| Potential immediate<br>effects | : Not available.                                    |
| Potential delayed effects      | : Not available.                                    |
| Long term exposure             |   |
| Potential immediate effects    | : Not available.                                    |
| Potential delayed effects      | : Not available.                                    |
| Potential chronic health eff   | <u>ects</u>   |
| Not available.                 |   |
| Conclusion/Summary             | : Not available.                                    |
| General                        | : No known significant effects or critical hazards. |
| Carcinogenicity                | : No known significant effects or critical hazards. |
| Mutagenicity                   | : No known significant effects or critical hazards. |
| Reproductive toxicity          | : No known significant effects or critical hazards. |
|                                |   |

#### **11.2 Information on other hazards**

| <b>11.2.1 Endocrine disrupting properties</b> |  |  |  |  |
|---|--|--|--|--|
| Not available.                                |  |  |  |  |
| 11.2.2 Other information                      |  |  |  |  |
| Not available.                                |  |  |  |  |

## **SECTION 12: Ecological information**

#### 12.1 Toxicity

| Product/ingredient name      | Result                                   | Species                                       | Exposure |
|------------------------------|--|---|----------|
| titanium dioxide             | Acute LC50 3 mg/l Fresh water            | Crustaceans - Ceriodaphnia<br>dubia - Neonate | 48 hours |
|                              | Acute LC50 6.5 mg/l Fresh water          | Daphnia - <i>Daphnia pulex -</i><br>Neonate   | 48 hours |
|                              | Acute LC50 >1000000 μg/l Marine<br>water | Fish - Fundulus heteroclitus                  | 96 hours |
| 2-Butoxyethanol              | Acute EC50 >1000 mg/l Fresh water        | Daphnia - <i>Daphnia magna</i>                | 48 hours |
|                              | Acute LC50 800000 µg/l Marine water      | Crustaceans - Crangon crangon                 | 48 hours |
|                              | Acute LC50 1250000 µg/l Marine water     | Fish - Menidia beryllina                      | 96 hours |
| 2-(2-butoxyethoxy)ethanol    | Acute LC50 1300000 µg/l Fresh water      | Fish - Lepomis macrochirus                    | 96 hours |
| 1,2-benzisothiazol-3(2H)-one | Acute EC50 0.36 mg/l Marine water        | Algae - Skeletonema Costatum                  | 72 hours |
|                              | Acute EC50 3.7 mg/l                      | Daphnia - Daphnia Magna                       | 48 hours |
|                              | Acute LC50 1.9 mg/l Fresh water          | Fish - Onorhynchus Mykiss                     | 96 hours |
|                              | Acute NOEC 0.15 mg/l Marine water        | Algae - Skeletonema Costatum                  | 72 hours |
| 2-methyl-2H-isothiazol-3-one | Acute EC50 0.18 ppm Fresh water          | Daphnia - Daphnia magna                       | 48 hours |
|                              | Acute LC50 0.07 ppm Fresh water          | Fish - Oncorhynchus mykiss                    | 96 hours |

**Conclusion/Summary** : Based on available data, the classification criteria are not met.

#### 12.2 Persistence and degradability

| Product/ingredient name  | Test              | Result         |            | Dose | Inoculum         |
|--|-------------------|----------------|------------|------|------------------|
| 1,2-benzisothiazol-3(2H)-one   | EU                | 24 % - 28 days |            | -    | -                |
| <b>Conclusion/Summary</b> : This product has not been tested for biodegradation. |                   |                |            |      |                  |
| Product/ingredient name  | Aquatic half-life |                | Photolysis | 5    | Biodegradability |
| 1,2-benzisothiazol-3(2H)-one   | -                 |                | -          |      | Inherent         |

#### **12.3 Bioaccumulative potential**

#### 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

#### 12.6 Endocrine disrupting properties

Not available.

#### 12.7 Other adverse effects

No known significant effects or critical hazards.

## SECTION 13: Disposal considerations

| 13.1 Waste treatment meth         | ods   |
|-----------------------------------|---|
| Product                           |   |
| Methods of disposal               | : The generation of waste should be avoided or minimised wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation and<br>any regional local authority requirements. Dispose of surplus and non-recyclable<br>products via a licensed waste disposal contractor. Waste should not be disposed of<br>untreated to the sewer unless fully compliant with the requirements of all authorities<br>with jurisdiction. |
| European waste<br>catalogue (EWC) | : 08.01.11  |
| Packaging                         |   |
| Methods of disposal               | : The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.  |
| Special precautions               | This material and its container must be disposed of in a safe way. Empty containers<br>or liners may retain some product residues. Avoid dispersal of spilt material and<br>runoff and contact with soil, waterways, drains and sewers.   |

## **SECTION 14: Transport information**
