Additional information:

For the wording of the listed risk phrases refer to section 16.

SECTION 04: First aid measures

- 4.1 Description of first aid measures
- After inhalation:
- Supply fresh air; consult doctor in case of complaints. After skin contact:
- Immediately wash with water and soap and rinse thoroughly.
- After eye contact:
 Rinse opened eye for several minutes under running water.
- After swallowing: Do not induce vomiting; call for medical help immediately.
- Information for doctor:
- 4.2 Most important symptoms and effects, both acute and delayed
- No further relevant information available.
 4.3 Indication of any immediate medical attention and special treatment needed
- No further relevant information available.

SECTION 05: Firefighting measures

- 5.1 Extinguishing media
- Suitable extinguishing agents:
- CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- For safety reasons unsuitable extinguishing agents: Water with full jet
- 5.2 Special hazards arising from the substance or mixture
- Formation of toxic gases is possible during heating or in case of fire.
- 5.3 Advice for firefighters
 Protective equipment: Mouth respiratory protective device. Do not inhale explosion gases or combustion gases.
 Additional information
- Cool endangered receptacles with water spray. Collect contaminated fire fighting water separately. It must not enter the sewage system.

SECTION 06: Accidental release measures

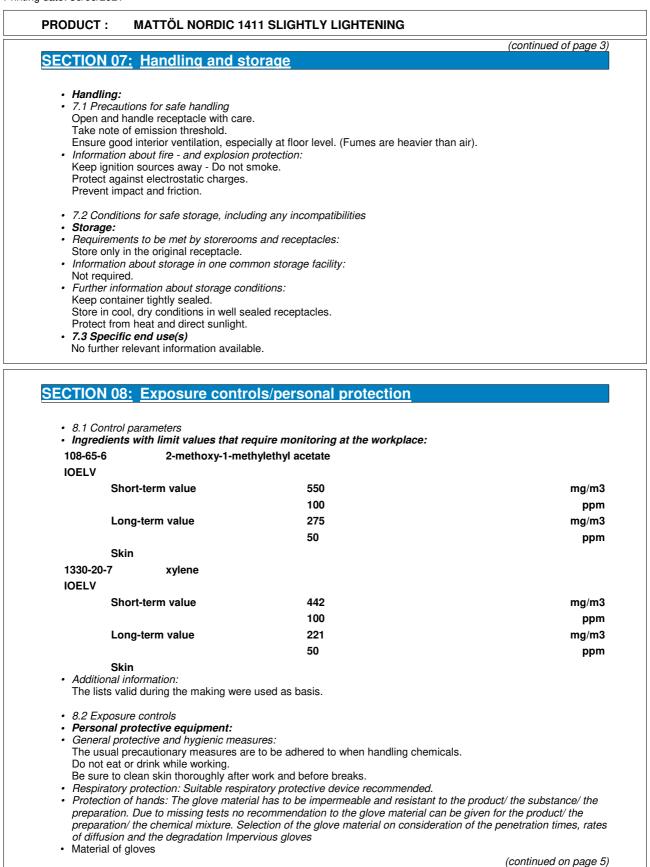

6.1 Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation 6.2 Environmental precautions: Do not allow product to reach sewage system or any water course. Prevent seepage into sewage system, workpits and cellars. Inform respective authorities in case of seepage into water course or sewage system. In case of seepage into the ground inform responsible authorities. In case of gas release or seepage into the ground inform responsible authorities. Do not allow to enter sewers/ surface or ground water. 6.3 Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to item 13. Ensure adequate ventilation. 6.4 Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

- Primary irritant effect:
 Skin corrosion/irritation
- Skin corrosion/irritatio No irritant effect.
- Serious eye damage/irritation
- No irritating effect.
- Respiratory or skin sensitisation No sensitising effects known.
- Additional toxicological information:

The product can cause deformations.

SECTION 12: Ecological information

• 12.1 Toxicity

Aquatic toxicity:

No further relevant information available.

- 12.2 Persistence and degradability
- No further relevant information available.
- Behaviour in environmental systems:
- 12.3 Bioaccumulative potential
- No further relevant information available.
- 12.4 Mobility in soil
- No further relevant information available.
- · Additional ecological information:
- General notes:

Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

- 12.5 Results of PBT and vPvB assessment
