Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878

# **SAFETY DATA SHEET**

TEKNOCLEAR AQUA PURE 4330-50

## SECTION 1: Identification of the substance/mixture and of the company/ undertaking

# 1.1 Product identifier

Product name : TEKNOCLEAR AQUA PURE 4330-50

**1.2 Relevant identified uses of the substance or mixture and uses advised againstProduct use**: Paint.

#### 1.3 Details of the supplier of the safety data sheet

Teknos Group Oy, Takkatie 3, FI-00370 HELSINKI, FINLAND. Tel. +358 9 506 091. e-mail address of person : Prod-safe@teknos.com responsible for this SDS

#### **National contact**

Teknos Group Oy, Takkatie 3, FI-00370 HELSINKI, FINLAND. Tel. +358 9 506 091.

#### 1.4 Emergency telephone number

Telephone number: In an emergency, call 112

### **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture Product definition : Mixture

Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS] Not classified.

The product is not classified as hazardous according to Regulation (EC) 1272/2008 as amended. See Section 11 for more detailed information on health effects and symptoms.

| 2.2 Label elements  |   |   |
|---|---|---|
| Signal word   | 1 | No signal word.   |
| Hazard statements   | 1 | No known significant effects or critical hazards.   |
| Precautionary statements  |   |   |
| Prevention  | 1 | Not applicable.   |
| Response  | 1 | Not applicable.   |
| Storage   | 1 | Not applicable.   |
| Disposal  | 1 | Not applicable.   |
| Supplemental label<br>elements  | : | Contains adipohydrazide, 1,2-benzisothiazol-3(2H)-one and reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1). May produce an allergic reaction. Safety data sheet available on request. Contains biocidal products for in-can preservation: BIT and DTBMA and C(M)IT/MIT (3:1) and MBIT. |
| Annex XVII - Restrictions<br>on the manufacture,<br>placing on the market and<br>use of certain dangerous<br>substances, mixtures and<br>articles | : |   |

#### 2.3 Other hazards

 Date of issue/Date of revision
 : 20/05/2025
 Date of previous issue
 : 10/10/2022
 Version
 : 3
 1/21

 TEKNOCLEAR AQUA PURE 4330-50
 Label No: 18840

### **SECTION 2: Hazards identification**

 Product meets the criteria
 : This mixture does not contain any substances that are assessed to be a PBT or a for PBT or vPvB according

 to Regulation (EC) No.
 vPvB.

 1907/2006, Annex XIII
 vPvB.

Other hazards which do : None known. not result in classification

### **SECTION 3: Composition/information on ingredients**

| 3.2 Mixtures : Mixture  |  |         |   |   |      |
|---|--|---------|---|---|------|

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

Туре

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

Occupational exposure limits, if available, are listed in Section 8.

: 20/05/2025 Date of previous issue

# SECTION 4: First aid measures

| 4.1 Description of first aid measures |  |  |  |
|---------------------------------------|--|--|--|
| Eye contact                           | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.  |  |  |
| Inhalation                            | : Remove victim to fresh air and keep at rest in a position comfortable for breathing.<br>Get medical attention if symptoms occur.   |  |  |
| Skin contact                          | <ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and<br/>shoes. Get medical attention if symptoms occur.</li> </ul>   |  |  |
| Ingestion                             | : Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |  |  |
| Protection of first-aiders            | : No action shall be taken involving any personal risk or without suitable training.   |  |  |
|                                       |  |  |  |

| 4.2 Most important symptoms and effects, both acute and delayed |
|---|
| Over-exposure signs/symptoms                                    |

| Eye contact  | : No specific data. |
|--------------|---------------------|
| Inhalation   | : No specific data. |
| Skin contact | : No specific data. |
| Ingestion    | : No specific data. |

#### 4.3 Indication of any immediate medical attention and special treatment needed

| Notes to physician  | : Treat symptomatically. Contact poison treatment specialist immediately if large<br>quantities have been ingested or inhaled. |
|---------------------|--|
| Specific treatments | : No specific treatment.   |
|                     |  |

# **SECTION 5: Firefighting measures**

| 5.1 Extinguishing media<br>Suitable extinguishing<br>media | ;    | Use an extinguishing agent suitable for the surrounding fire.   |
|--|------|---|
| Unsuitable extinguishing media                             | :    | None known.   |
| 5.2 Special hazards arising f                              | iron | the substance or mixture  |
| Hazards from the substance or mixture                      | :    | In a fire or if heated, a pressure increase will occur and the container may burst.   |
| Hazardous combustion products                              | :    | Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide  |
| 5.3 Advice for firefighters                                |      |   |
| Special protective actions for fire-fighters               | :    | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.   |
| Special protective<br>equipment for fire-fighters          | :    | Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents. |

: 20/05/2025 Date of previous issue

# **SECTION 6: Accidental release measures**

| 6.1 Personal precautions, pro   | ote | ctive equipment and emergency procedures  |
|---------------------------------|-----|---|
| For non-emergency<br>personnel  | :   | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilt material. Put on appropriate personal<br>protective equipment.  |
| For emergency responders        | :   | If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| 6.2 Environmental precautions   | :   | Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains<br>and sewers. Inform the relevant authorities if the product has caused environmental<br>pollution (sewers, waterways, soil or air).   |
| 6.3 Methods and material for    | со  | ntainment and cleaning up   |
| Small spill                     | :   | Stop leak if without risk. Move containers from spill area. Absorb with an inert material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.  |
| Large spill                     | :   | Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Dispose of via a licensed waste disposal contractor. Contain and collect spillage with non-combustible, absorbent material e. g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. |
| 6.4 Reference to other sections | :   | See Section 1 for emergency contact information.<br>See Section 8 for information on appropriate personal protective equipment.<br>See Section 13 for additional waste treatment information.   |

# **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

| Protective measures                    | : Put on appropriate personal protective equipment (see Section 8).   |
|--|---|
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |

#### 7.2 Conditions for safe storage, including any incompatibilities

To not store below the following temperature: 5°C (41°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

# 7.3 Specific end use(s)

Recommendations Industrial sector specific solutions

- : Not available.
- : Not available.

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

### 8.1 Control parameters

**Occupational exposure limits** 

| Product/ingredient name  | Exposure limit values   |

| 8.2 Exposure controls              |   |       |  |  |  |
|------------------------------------|---|-------|--|--|--|
| Appropriate engineering controls   | Good general ventilation should be sufficient to control worker exposure to airborne contaminants.  |       |  |  |  |
| Individual protection meas         | res   |       |  |  |  |
| Hygiene measures                   | Wash hands, forearms and face thoroughly after handling chemical products,<br>before eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Wash contaminated clothing before reusing. Ensure that eyewash stations and<br>safety showers are close to the workstation location. |       |  |  |  |
| Eye/face protection                | : Safety eyewear complying with an approved standard should be used when a ri-<br>assessment indicates this is necessary to avoid exposure to liquid splashes, mis<br>gases or dusts. If contact is possible, the following protection should be worn,<br>unless the assessment indicates a higher degree of protection: safety glasses<br>side-shields.  | ists, |  |  |  |
| Skin protection                    |   |       |  |  |  |
| Hand protection                    | : Chemical-resistant, impervious gloves complying with an approved standard she worn at all times when handling chemical products if a risk assessment indic this is necessary.   |       |  |  |  |
|                                    | Recommendations : Wear suitable gloves tested to EN374.   |       |  |  |  |
|                                    | > 8 hours (breakthrough time): Nitrile gloves. thickness > 0.3 mm   |       |  |  |  |
|                                    | Not recommended polyvinyl alcohol (PVA) gloves  |       |  |  |  |
| Body protection                    | : Personal protective equipment for the body should be selected based on the tas<br>being performed and the risks involved and should be approved by a specialist<br>before handling this product.  | sk    |  |  |  |
| Other skin protection              | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   | be    |  |  |  |
| Respiratory protection             | : Based on the hazard and potential for exposure, select a respirator that meets t appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other impor aspects of use.  |       |  |  |  |
|                                    | Filter type (spray application): A P  |       |  |  |  |
| Environmental exposure<br>controls | : Emissions from ventilation or work process equipment should be checked to<br>ensure they comply with the requirements of environmental protection legislation<br>In some cases, fume scrubbers, filters or engineering modifications to the proce<br>equipment will be necessary to reduce emissions to acceptable levels.  |       |  |  |  |

# **SECTION 9: Physical and chemical properties**

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

TEKNOCLEAR AQUA PURE 4330-50

Γ

# **SECTION 11: Toxicological information**

| SECTION 11: TOXICO   | logical information   |
|--|---|
| Ingestion  | : No known significant effects or critical hazards.   |
| Symptoms related to the ph   | ysical, chemical and toxicological characteristics  |
| Eye contact  | : No specific data.   |
| Inhalation   | : No specific data.   |
| Skin contact   | : No specific data.   |
| Ingestion  | : No specific data.   |
| Delayed and immediate effe   | ects as well as chronic effects from short and long-term exposure   |
| <u>Short term exposure</u>   |   |
| Potential immediate effects  | : Not available.  |
| Potential delayed effects  | : Not available.  |
| Long term exposure   |   |
| Potential immediate effects  | : Not available.  |
| Potential delayed effects  | : Not available.  |
| Potential chronic health effe  | <u>ects</u>   |
| Not available.   |   |
| Conclusion/Summary [Pro  | oduct] : Not available.   |
| General  | : No known significant effects or critical hazards.   |
| Carcinogenicity  | : No known significant effects or critical hazards.   |
| Mutagenicity   | : No known significant effects or critical hazards.   |
| Reproductive toxicity  | : No known significant effects or critical hazards.   |
| <b>11.2 Information on other has</b><br><b>11.2.1 Endocrine disrupting</b><br>Not available. |   |
| Conclusion/Summary [Pro  | <ul> <li>pduct] : The product does not meet the criteria to be considered as having endocrine disrupting properties according to the criteria set out in either Regulation (EC) No. 1907/2006 or Regulation (EC) No 1272/2008.</li> </ul> |
| <b>11.2.2 Other information</b><br>Not available.  |   |

**Product/ingredient name** 1,2-benzisothiazol-3(2H)-one

#### Result

Acute - LC50 - Fresh water OECD [Fish, Acute Toxicity Test] Fish - Trout - Onorhynchus Mykiss 1.9 mg/l [96 hours]

#### Acute - EC50

OECD 202 [Daphnia sp. Acute Immobilization Test and Reproduction Test] Daphnia - Daphnia - Daphnia Magna 3.7 mg/l [48 hours]

#### Acute - EC50 - Marine water

OECD 201 [Alga, Growth Inhibition Test] Algae - Algae - Skeletonema Costatum 0.36 mg/l [72 hours]

Acute - NOEC - Marine water

OECD 201 [Alga, Growth Inhibition Test] Algae - Algae - Skeletonema Costatum 0.15 mg/l [72 hours]

Conclusion/Summary [Product] : Not available.

#### 12.7 Other adverse effects

No known significant effects or critical hazards.

# **SECTION 13: Disposal considerations**

| 13.1 Waste treatment meth         | nods  |
|-----------------------------------|---|
| Product                           |   |
| Methods of disposal               | : The generation of waste should be avoided or minimised wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation and<br>any regional local authority requirements. Dispose of surplus and non-recyclable<br>products via a licensed waste disposal contractor. Waste should not be disposed of<br>untreated to the sewer unless fully compliant with the requirements of all authorities<br>with jurisdiction. |
| European waste<br>catalogue (EWC) | : 080112, 200128  |
| Packaging                         |   |
| Methods of disposal               | : The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.  |
| Special precautions               | : This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.   |

**TEKNOCLEAR AQUA PURE 4330-50** 

# SECTION 15: Regulatory information

|  | General: Gloves must be worn for all work that may result in soiling. Apron/   |
|--|--|
|  | coveralls/protective clothing must be worn when soiling is so great that regular work clothes do not adequately protect skin against contact with the product. A face shield must be worn in work involving spattering if a full mask is not required. In the case, other recommended use of eye protection is not required. |
|  | In all spraying operations in which there is return spray, the following must be worr respiratory protection and arm protectors/apron/coveralls/protective clothing as appropriate or as instructed.   |
|  | MAL-code: 0-1<br>Application: When spraying in existing* spray booths, if the operator is outside th spray zone.   |
|  | - Arm protectors must be worn.   |
|  | During non-atomising spraying in existing* facilities of the combined-cabin, spray-<br>cabin and spray-booth type where the operator is working inside the spray zone.   |
|  | - Gas filter mask must be worn.  |
|  | During all spraying where atomisation occurs in cabins or spray booths where the operator is inside the spray zone and during spraying outside a closed facility, cab or booth.  |
|  | - Full mask with combined filter, coveralls and hood must be worn.   |
|  | <b>Drying:</b> Items for drying/drying ovens that are temporarily placed on such things a rack trolleys, etc, must be equipped with a mechanical exhaust system to prevent fumes from wet items from passing through workers' inhalation zone.   |
|  | <b>Polishing:</b> When polishing treated surfaces, a mask with dust filter must be worn When machine grinding, eye protection must be worn. Work gloves must always b worn.  |
|  | <b>Caution</b> The regulations contain other stipulations in addition to the above.  |
|  | *See Regulations.  |
