

# **AQUAFINE 8338-05 GRIP**

## Water-borne, textured 2C top coat for interior use

AQUAFINE 8338-05 GRIP is a water-borne, textured 2C top coat that creates a sophisticated finish. The coating is resistant to household chemicals including cleaning and disinfectant agents. The coating is ringresistant and has a high resistance to metal abrasion, also without recoating.

#### **TECHNICAL DATA**

| Certificates, approvals and classification | Swiss environmental label UE II, class C                                       |  |  |
|--|--|--|--|
| Fields of application                      | Furniture, Kitchen, Kitchen furniture, Interior doors                          |  |  |
| Binder                                     | Acrylate   |  |  |
| Solids                                     | Approx. 44% by weight  |  |  |
| Volatile organic compound (VOC)            | Approx. 67 g/l (DIRECTIVE 2010/75/EU)  |  |  |
|  | The VOC value provided is the average value for factory produced products, and |  |  |
|  | consequently it will be subject to variations between individual products      |  |  |
|  | covered by this Technical Data Sheet.  |  |  |
| Theoretical spreading rate                 | 100 g/m²; 10 m²/kg   |  |  |
| Colours                                    | Colourless. Available in all RAL and NCS-S colours or at your request.         |  |  |
| Tinting system                             | Largo  |  |  |
| Gloss (60°)                                | 5  |  |  |
| Hardener                                   | Comp. B: HYDROPUR 7515-99  |  |  |
| Mixing ratio (A:B)                         | 10:1 parts by weight   |  |  |
| Pot life, +23°C                            | 2-3h   |  |  |
| Density                                    | Approx. 1.18 g/ml  |  |  |
| Storage                                    | Storage temperature is +5°C - +30°C.   |  |  |

#### **DIRECTION FOR USE**

| Surface preparation | Coating removal: Sand, strip  |
|---------------------|---|
| Application method  | Conventional spraying, Airless spraying, Air-assisted airless spraying              |
|                     | Effect coatings should only be applied by air atomisation, e.g. with a gravity feed |
|                     | gun or a low-pressure double diaphragm pump.  |
|                     | Please refer to the instructions in the process data sheet "Large-area coatings     |
|                     | with effect coatings" (VTM 4126).   |

### **Application**

Stir or shake the product well for several minutes before use, if necessary by machine.
