

RENSA ROOF

Roof wash

RENSA ROOF is an efficient detergent for washing of tile roofs and previously painted very dirty sheet-iron roofs.

RENSA ROOF is a pretreatment agent for maintenance painting, which removes very efficiently both dirt and algae as well as lichen growth. It is meant for washing of previously painted, dirty sheet-iron roofs before maintenance painting with a paint for sheet-iron roofs. RENSAROOF is also very well suited for washing old tile roofs before painting with a paint for tile roofs.

RENSA ROOF is a biodegradable product. It meets the requirements by OECD and by the Detergent regulation of European Parliament and the Council on detergents for biodegradability (OECD 301B, EC 648 / 2004).

TECHNICAL DATA

| | |
|---|---|
| Certificates, approvals and classification | OECD 301B, EC 648 / 2004 |
| Fields of application | Roof |
| Recommended substrate | Roof tile, Sheet-iron |
| Practical spreading rate | Approx. 35 m ² / 1 l undiluted detergent. Dilution: For washing of and pre-treating surface to be painted: 1 : 3 (1 litre of detergent to 3 litres of water). Absorption of the surface, dirtiness, air humidity etc. factors affect considerably on the spreading rate. |
| pH | 10 |
| Storage | Must not freeze. |
| Packaging | 1 l, 5 l, 10 l. Availability varies by country. |

DIRECTION FOR USE

| | |
|----------------------------|--|
| Surface preparation | Remove loose dirt, moss and growth from the roof by brushing and/or using a pressure washer. Wet the tile surface with water before applying the detergent. This prevents the detergent from absorbing too much and drying too fast. |
|----------------------------|--|

Application

Dilute RENZA ROOF with water depending on the purpose of its use:

For washing of and pre-treating surface to be painted: 1 : 3 (1 litre of detergent to 3 litres of water).

Apply the detergent to the surface to be cleaned by using e.g. a brush or low-pressure spray (so-called garden spray). Let it act for approx. 20 minutes. Enhance the cleaning effect by brushing strongly.

NB! The detergent must not dry on the surface to be cleaned - wet the surface again with the washing fluid, if needed.

Rinse the surface thoroughly with a plenty of clean water by using a pressure washer.

HEALTH AND SAFETY

Safety and precaution measures

RENZA ROOF is an efficient product. Therefore, using the detergent must be followed with a reasonable caution. Avoid skin contact and breathing the spray mist. Protect eyes from splashes. More information from product's safety data sheet: www.teknos.com.

The detergent may harm garden plants – avoid unnecessary splashing. The most sensitive plants can be covered or wetted with water before the treatment.

The detergent may matten or lighten surfaces – avoid unnecessary splashing.

Use biocides safely. Always read the label and product information before use.
