

AQUATOP[®] VIRT^A

With Teknos Advanced Fluid-Flow Technology

AQUATOP[®] VIRT^A combines innovative technology and environmental responsibility to set a new standard in exterior wood coatings.

SPRAY SMARTER. WASTE LESS.

- Reduce overspray wastage by up to 40%
- Lower energy consumption & costs
- Performance in any environment

Low emissions, supporting good indoor air quality

Helps you reach your own emission reduction targets

Rated A+ (for products with low or no VOC emissions)

REDUCE YOUR
OVERSPRAY WASTAGE
BY UP TO
40%

Meeting manufacturers' needs

Ideal for a range of industrial applications, AQUATOP® VIRTÀ excels on standard wood species and modified timbers, offering outstanding adhesion and finish quality. With excellent anti-blocking properties.

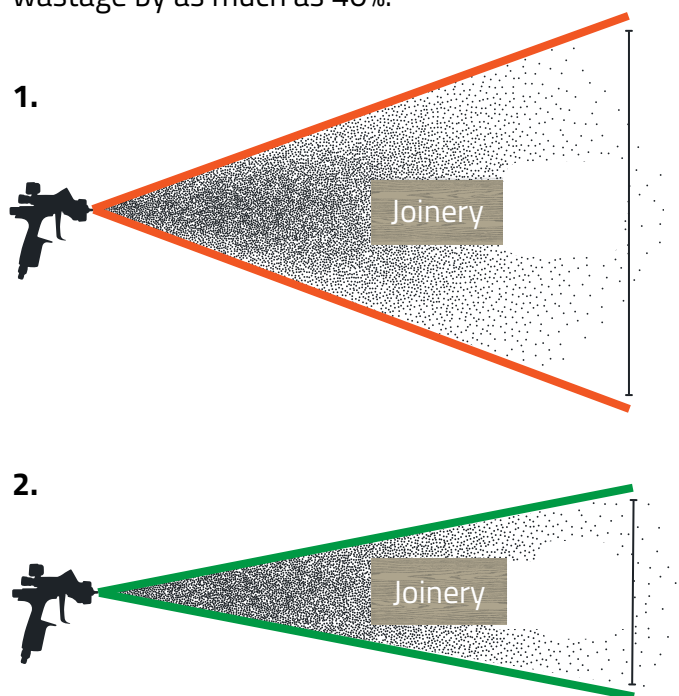

AQUATOP® VIRTÀ is crafted for manufacturers prioritizing efficiency, quality, and sustainability. With its fast drying profile and superior atomization, you'll experience shorter process times and a smooth, professional finish, every time. Expect higher yields and exceptional results.
