WOODEN FACADES

MAINTENANCE INSTRUCTIONS FOR WOODEN FACADES PAINTED WITH

WATER-BORNE HOUSE PAINTS

Nordica Eko, Nordica Classic, Nordica Matt
Visa, Visa Premium, Visa Master

SOLVENT-BORNE OIL PAINTS

Tranemo Äkta Linseed Oil Paint
Visa Tradition alkyd paint
Wintol Oil paint

Note!

When washing wooden facades, we advise against using a high-pressure washer. Normal water pressure is sufficient.

When cleaning, the painted surfaces should be in such good condition that they do not directly absorb water (a little water always penetrates). If the surfaces are in such poor condition that they suck in water and become dark, we recommend repainting the surface. Always wash from the bottom up.

CLEANING WOODEN FACADES, FENCES ETC.

Wash with warm water about 35°C. Use RENSA FAÇADE and/or RENSA ANTI-MOULD wash according to the instructions. Apply the detergent with a scrubbing brush or similar and leave to affect according to the instructions, rinse the detergent thoroughly with water. If the surfaces are infested with algae or mould, use mould washing according to the instructions.
