

TEKNODUR 35-900

High solids premium quality polyurethane top coat

A FULL GLOSS TOP COAT FOR METAL SURFACES

Flawless finish and high durability is important for original equipment manufacturers. The full gloss and high solids TEKNODUR 35-900 top coat is the optimal solution for surfaces subjected to heavy stresses requiring a first-class quality appearance in the desired colour. It provides outstanding protection against corrosion, weathering and abrasion. These properties makes TEKNODUR 35-900 particularly suitable for commercial vehicle, trailer and rail vehicle manufacturers as well as machinery in agricultural, construction and earth-moving range. TEKNODUR 35-900 is an excellent choice both for new production and integration into large scale manufacturing processes as well as for refinishing and refurbishing of used equipment.

TEKNODUR 35-900 is easy to use and gives a reliable and repeatable result. This premium two pack low VOC coating is delivered ready to be used – without any need for additional thinning.

TEKNODUR 35-900 BENEFITS AT A GLANCE

- Full gloss finish
- Outstanding levelling
- Excellent weather and UV resistance, very high colour and gloss retention
- Very good resistance to chemical and mechanical stress
- Excellent flexibility in the range of polyurethane topcoats
- Easy application, ready to use
- Good spreading rate
- Wide colour availability
- Possibility to overcoat wet-on-wet or without sanding using recommended polyurethane primer
- Uniform hardener with TEKNODUR PRIMER 17

EFFICIENCY WITH A UNIFORM HARDENER FOR PRIMER AND TOPCOAT

By using TEKNODUR PRIMER 17 together with the TEKNODUR 35-900 topcoat, you will ensure a high quality finish. Compatible Ultra High Solid TEKNODUR PRIMER 17 offers fast process throughput times made possible by fast primer overcoating pace. For process simplification this system utilizes the same hardener, TEKNODUR HARDENER 0087, for both primer and top coat.

Less cleaning effort and reduction in the number of work steps required optimize your processes and set new standards in terms of time, cost and energy efficiency.

RECOMMENDED PAINT SYSTEM

Primer	TEKNODUR PRIMER 17 Ultra high-solid premium quality polyurethane primer
Topcoat	TEKNODUR 35-900 High solids premium quality polyurethane top coat.
Uniform hardener TEKNODUR HARDENER 0087 in the paint system.	

Alternative low VOC epoxy primer for higher corrosion protection TEKNOPOX PRIMER 9-00.

CLOSE TO CUSTOMER

Our long expertise and experience in the coatings industry has made it possible for us to build long and meaningful customer relationships over the years.
