

SUSTAINABILITY AT TEKNOS

OUR GOAL

Working together and understanding the sustainability needs of our key stakeholders.

HOW WE WORK

Sustainability is integrated into our strategy and business model and affects everyday decision-making.

OUR APPROACH

Protect the planet and make the world last longer.

Our main sustainability targets 2019–2025

We create sustainable longterm value for our key stakeholders by investing in four focus areas:

0%
added **MIT** in our products by 2025
- 5%
Decrease of **VOC** in products annually*

100%
Of line managers have received the Teknos **leadership training** by 2025

Of employees have annual **appraisal discussion** with his/her line manager

Supporting local communities and entrepreneurial spirit and thinking in the society

Providing opportunities for young people to develop in their careers

-10%
Decrease of **Lost Time Accident (LTAF)** rate annually*

-5%
Decrease of **energy** usage in production sites annually

Decrease of **paint waste** (g/kg produced paint) annually in production sites

80%
Of suppliers assessed by **EcoVadis** by 2025

95%
Of suppliers covered by Teknos' **Supplier Code of Conduct** by 2025
