The Teknos Group

Teknos is one of Europe's leading suppliers of industrial coatings with a strong position in retail and architectural coatings.

Teknos has its own production in seven countries: Finland, Sweden, Denmark, Germany, Poland, Russia and China. In addition, Teknos has sales companies in 17 countries and exports to more than 20 countries via a well-established network of dealers.

Teknos employs around 1 200 staff. Teknos was established in 1948 and is one of Finland's largest family-owned businesses.

Paint with Pride

Attractive and weatherproof

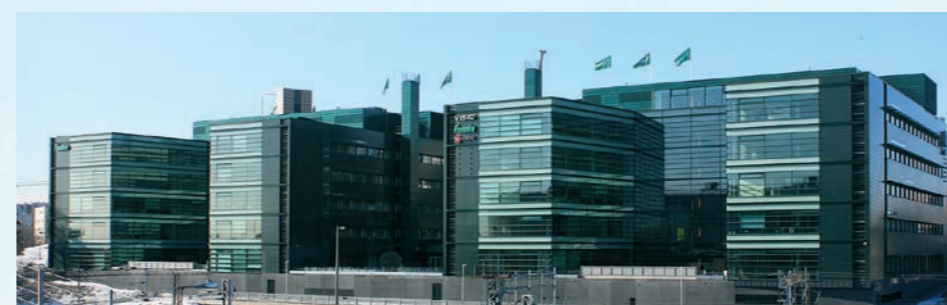

A building features a wide variety of materials and surfaces that are both visible as well as exposed to sun, rain, snow and dirt. There are also several safety and fire resistance requirements that must be met. Therefore, a close attention should be paid to issues such as coating solutions for various surfaces – already in the planning and design stage.

The Teknos portfolio of architectural powder coatings features a wide variety of top-class solutions to situations where the building has to look magnificent for a long time. Our long experience in powder coatings as well as determined research and development work are most efficient tools in ensuring top quality and aesthetic appearance for all surfaces. Seamlessly combining visual appearance with weatherproof properties, our

products are perfectly suitable for both aluminium and steel.

Furthermore, our powder coatings possess best-in-class fire safety features such as inducing no flaming droplets. They produce very low flame in the case of fire and also the quantity of smoke stays limited. In general, our powder coatings feature extremely low reactions to fire.

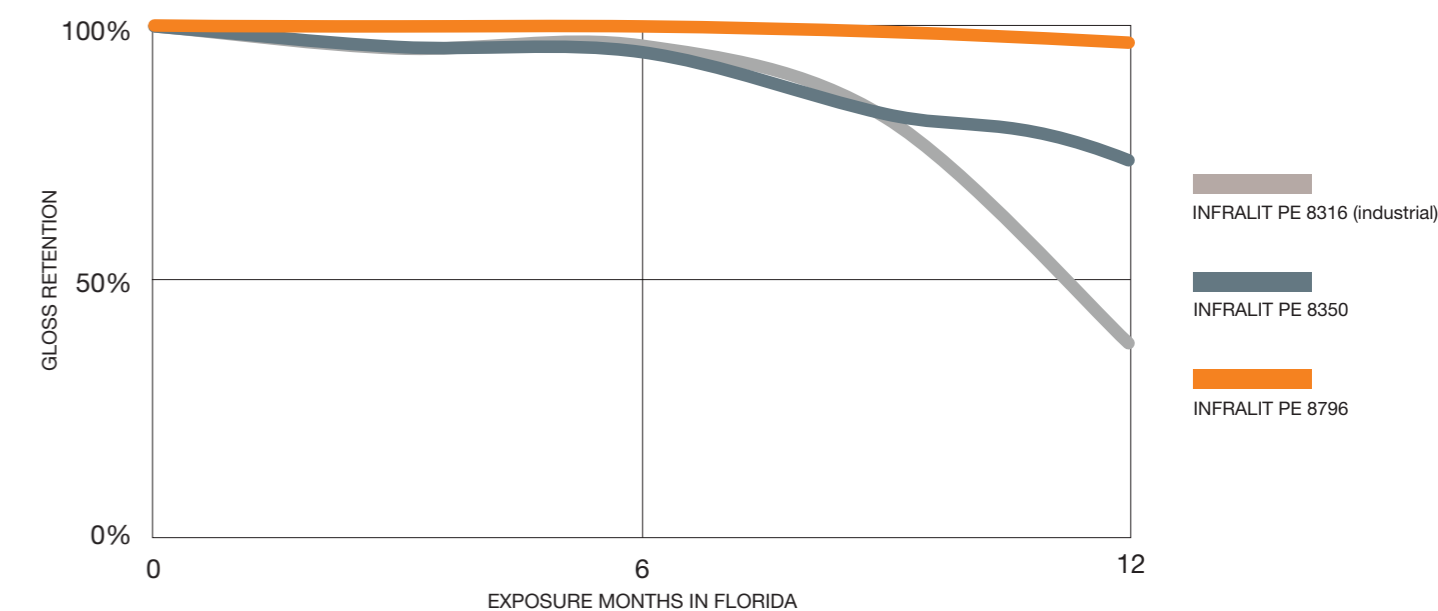

Excellent adhesion, UV durability and corrosion resistance make Teknos powder coatings a leading choice. They are easy to apply and completely free of toxic ingredients. Being also free of heavy metal pigmentation and VOC, our architectural powder coatings can contribute to the well-being of both the painters and the environment.

Teknos systems for Architectural Powder Coatings

PRODUCT	VARIANT	TYPE	GLOSS	CURING TIME / SUBSTRATE TEMP.	APPROVALS
INFRALIT PE 8350	-15 -07 -20 -77	SOLID BONDED METALLIC POWDER MIX DECO	65 – 85	10 MIN / 180 °C 9 MIN / 190 °C	GSB STANDARD QUALICOAT CLASS 1 IMO FTPC PART 2 AND 5
