The colours displayed have been produced as close as possible with the used printing technique. Always choose the final colour using standard colour cards available from your retailer.

REIGNITE YOUR LOVE OF HOME

THE NEW,
SUSTAINABLY-MADE
COLOURS FROM TEKNOS

We at Teknos have created five collections of stunning colours to complement your own personal style.

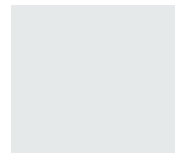

Created by our colour designers, the Colour Your Story collections take inspiration from the Nordic scenery and Scandinavian style. The colours in the collections have been chosen from Teknos' extensive interior colour selection. Their clean, honest colours and playful shades are easy to use as part of different decorative styles and are suitable for all surfaces within the home - from floor to ceiling.

When selecting Teknos interior paint, you choose a high-quality, Finnish product that has been made sustainably and with respect towards the environment.

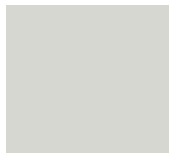

Let the new Teknos colour collections help you bring your own personal style to life - and reignite your love of home.

NORDIC PHENOMENA

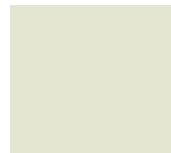

Nordic Phenomena is a collection of cool, calm colours with hues of blue and green that bring northern themes into your home. Shades of refreshing water and ancient forests take you closer to nature, creating a tranquil atmosphere.

REIGNITE YOUR
LOVE OF HOME

The Cozy Weekend colour collection consists of warm and neutral shades, perfect for creating a welcoming and embracing ambience. The collection's warm whites can be used to soften other shades, making a space feel pleasant and homely.

Cheer up a peaceful ambience by combining with colours from the Express Yourself collection.

COOL LIVING

Cool, harmonious greys and whites straight from a Nordic winter scene. The colours of the Cool Living collection creates contrasts in a minimalist style where matte light meets with soft darker shades.

Bravely combine light and dark shades to create interesting, modern styles. A confident decorator combines Cool Living shades with the Colours Without Borders collection.

NATURE, RESPONSIBILITY, AND INNOVATION AT THE HEART OF TEKNOS

Did you know the story of Teknos started at a humble poultry farm in 1948? We were never much of a farmer but we have been growing our reputation as a trailblazer in the paint and coatings industry ever since. From our first casein paint to the newest air cleaning indoor paint, BIORA® AIR, we have strived to innovate and develop even better, more sustainable, and higher quality paints.

We are a Finnish family business with Nordic values and responsibility at the heart. That is why we feel proud to be at the forefront of developing water-borne paints that are kind to the environment.

The Colour Your Story collections are a creative feat from our colour designers where experience, style, and professionalism meet. We have made it easy to help you to bring your personal style to life by choosing from our timeless and fresh colours collections. **The long-lasting and opaque** Teknos paints make decorating easy and enjoyable.

Like over 70 years ago, our paints **are still produced as Finnish craftwork** in collaboration with professionals from the decoration, architecture, and coatings industries.

WE'RE **EASY ON**
THE ENVIRONMENT

FIND THE RIGHT COLOUR FOR YOU

We have designed the Colour Your Story collections to make the process of choosing the right colour for you a breeze. Our colour designers have put together some useful tips to help you find the perfect colours and choose the right products. So you can go ahead, roll up your sleeves, and get straight to it!

DIMMA PÅ HAVET
T1772

HELLO DARKNESS
T1756

CHOOSE THE RIGHT PAINT FOR THE SURFACE

Paints have different purposes so to achieve the best results match your paint with the material (wood, metal, plasterboard) and the surface (ceiling, walls, floor, furniture). **Take the usage requirements, such as the need for regular cleaning, into account.** Glossier surfaces are easier to keep clean.

FUTURA® AQUA -furniture paint for wood and metal surfaces is suitable for indoor and outdoor use. Choose from different sheens from matte to gloss. **FUTURA® AQUA** can be mixed in any colours from the Colour Your Story collections and is easy and safe to use in the home.

MATCH THE PAINT WITH ITS ENVIRONMENT

Let your dreams and preferences guide you in finding the right colours for you. Painting test swatches can make choosing easier. It is important to select the colour in the right lighting. For example, store lighting can be very different from the lighting in your home.

Shades and sheens can be used to influence the mood of the space. **A semi-matt sheen creates a calmer ambience because the surface will reflect less light.**

BIORA® paints

The **BIORA®** collection of paints are water-borne, safe and responsibly developed interior paints best suited for coating walls and ceilings. **BIORA® PRIMER** full-matt paint is perfect for painting the ceiling. Full-matt **BIORA® BALANCE** and semi-matt **BIORA® 7** are great for painting the bedroom and the living room.

GLOSS BRINGS COLOURS ALIVE

The level of gloss can alter how the colour is perceived. **A gloss paint makes the colour feel deeper and a matt finish softens the shade.**

Water-borne, semi-gloss **TEKNOFLOOR® AQUA** is the preferred option for floors. When choosing the colour for your floor, inspect the colour swatch flat on the floor to get the best idea of how the colour will look.

CHOOSE THE RIGHT LEVEL OF SHEEN

FULL-GLOSS	Furniture, doors, and windows	FUTURA® AQUA 90
SEMI-GLOSS	Furniture, doors, and windows	FUTURA® AQUA 40
SEMI-MATT	Kitchen, hallway	BIORA® 20, BIORA® CLEAN
	Furniture, doors, and windows	FUTURA® AQUA 20
MATT	Living room, bedroom	BIORA® 7, BIORA® AIR
	Furniture, doors, and windows	FUTURA® AQUA 5
FULL-MATT	Living room, bedroom	BIORA® BALANCE, BIORA® PRIMER, BIORA® AIR CEILING

INVEST IN YOUR HOME'S WELLBEING

The new, innovative, water-borne paints from the BIORA® series, **BIORA® AIR**, **BIORA® AIR CEILING**, and **BIORA® CLEAN**, help you maintain cleaner indoor air and home surfaces.

The BIORA® AIR interior paint lets you create a beautiful semi-matt surface, whilst its extraordinary Nordic Indoor Air Purifier technology cleans the air from harmful aldehydes.

BIORA® CLEAN is an interior paint, recommended by the Finnish Allergy and Asthma Federation, that helps you keep your home's surfaces clean. The safe and semi-matt paint creates an antimicrobial coating that inhibits the growth of harmful microbes.

BIORA® AIR and BIORA® CLEAN combined with all Teknos indoor colours.

**WE MAKE
THE WORLD
LAST
LONGER**
