

## Flow Coat - Next Generation Coating Solutions for Pipelines

Teknos has strong and well-documented proof of its expertise in the surface treatment for internal and external pipeline applications. Teknos has an extensive product range and can provide the correct painting solutions for the pipelines in different environments, including onshore and offshore.

Teknos' technical service engineers have a wide experience in the industrial painting field, and they are happy to help you. For further information, please contact your local Teknos' representative.

With TEKNOPOX 3297 Teknos expands the product range with its latest development for pipeline coatings – the next Generation of Flow Coat. The new Flow Coat is an innovative alternative for all pipe coaters who strive to improve their profitability without sacrificing the high quality.

TEKNOPOX 3297 is an almost solvent-free, epoxy-based Flow Coat, designed to improve flow of natural gas in the gas pipeline. The product was developed to meet more and more stringent requirements regarding solvent emissions as well as occupational health and safety of employees.
